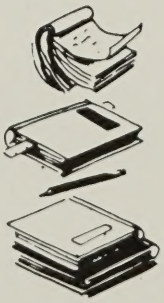
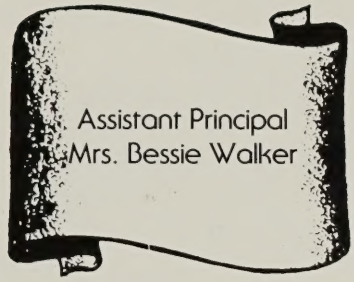
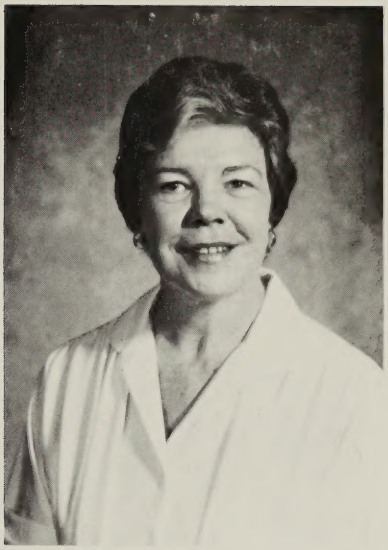
Hard at Work!



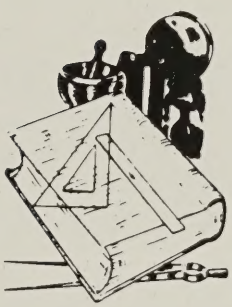
ADMINISTRATION



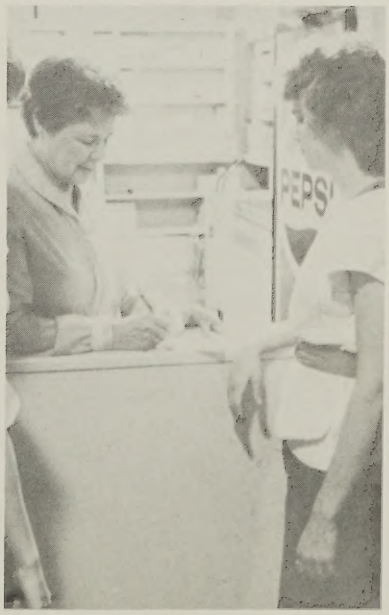


All I have to give is my all — that I give with love

Behind Every Cluttered Desk There is a Genius at Work!



Excuses Excuses



From Every

Pride is on the upswing. In 1986 the students, faculty and administration are looking at PHS from a positive angle. Whether it's sports or academics, hard work, sweat and determination make anything a reality. The students, faculty and adminstration along with the community look with pride at PHS . . . from every angle.

Angle

Life goes on!! Interaction is the key to education. Social interaction, classroom discussion and in this age of technology even interaction with high-tech machines make up the academic life at PHS. Looking from any angle . . . the students make PHS what it is . . . Great!!

"BRAIN POWER"

CLASS OF

"A STEP ABOVE THE REST"

The 1986 Senior class is proud of their achievements both academic and athletic. Hopefully the marks they leave at PHS will be as lasting as the memories they carry away at graduation.

As the seniors leave to pursue their chosen paths, perhaps this quote by Ralph Waldo Emerson will serve

1986

as a guidepost:

"The things taught in colleges and schools are not education, but the means of education."

Every 76 years a special phenomenon occurs. Across our skies passes a marvelous sight . . . Halley's comet. A once in a lifetime event for most of us. As this beautiful sight takes place we reflect on the once in a lifetime event that occurs for us . . . high school. Just as the short occurance of Halley's makes a lasting impression, so our years at PHS make lasting impressions on all of us. One year left . . . our last chance to follow the tracks left by Halley's and move to greatness.
